

C2R Client returned failing error code 30125

Error during downloading Office 365 C2R files

While trying to download Office 2016 C2R installation files, I received the following error message: "We are sorry, we had a problem installing your Office program(s)." The error code is 30125-1007 (404).

These error messages are not very clear. The only 'normal' part is the error code 404, that stands for not found.

I used the following download xml file to download the C2R files:

Whatever I did, the error message did not go away.

Only after adding Branch="Current" the download went well.

The correct file to download:

...
